Dear Mr. Weisberg:

I am truly sorry that I sent the incorrect amt. of money for the 4 books I recently ordered. Enclosed is the additional $4.15 which I owe. I hope you wont forget to let me know if and when the Post Mortem series become available. Also will "Oswald in New Orleans" be available again, even tho it is now out of print?

As I was looking at the library for books concerning the J.F.K. assassination, I came across a book which purports to be an "unbiased" study of the Critics of the Warren report. (You can ascertain how unbiased it is by the title, "The Scavengers and Critics of the Warren Report"). It is by Richard Warren Lewis and Lawrence Schiller and it includes you (as I am sure you know.) I was wondering if you had any personal comment on the book and/or the authors? (over)

Have you obtained any of the suppressed spectographic information as of this date?

I wish you and Mr. Fensterwald much luck.

Sincerely,

Helen Moskowitz
